# *The Divine Decree*

**T**he Divine Decree presents God's complete knowledge of angelic and human history from eternity past to eternity future. For example, when a person expresses his personal faith in the working object of Jesus Christ in time, it was known to God in eternity past. The result is the salvation of that person's soul. The divine decree permits volition to function freely, therefore the sovereignty of God and the free will of man coexist by divine decree. Volition permits each person to freely make his own choices, either for or against the gospel of salvation or the Word of God. This book discusses this gracious option of divine omniscience with human free will.
